Catalog Description:	NFZ53E-21 24-60V50/60HZ 20-60VDC Contactor Relay
Long Description:	NFZ contactor relays are used for switching auxiliary and control circuits. N FZ contactor relays include an electronic coil interface accepting a wide co ntrol voltage Uc min Uc max. Only four coils cover control voltages bet ween 24250 V 50/60 Hz or 12250 V DC. NF contactor relays can mana ge large control voltage variations. One coil can be used for different contr ol voltages used worldwide without any coil change NFZ contactor relays al low direct control by PLC-output \geq 24 V DC 500 mA and obtain a reduced h olding coil consumption. NFZ contactor relays withstand short voltage dips and voltage sags (SEMI F47-0706 compliance) between 24250 V 50/60 Hz NFZ contactor relays have built-in surge protection and do not require a dditional surge suppressors - Poles: 8-pole contactor relays with a non-rem ovable front-mounted auxiliary contact block (mechanically-linked auxiliary contacts compliant with Annex L of IEC 60947-5-1 and including the "Mech anically Linked" symbol on the contactor relay side) - Control Circuit: AC or DC operated - Accessories: a wide range of Accessories is available.
