

TYPE APPROVAL CERTIFICATE

Certificate No: TAE0000201 Revision No: 2

inis is to certify:			
That the Overcurrent- and Short-Circuit Relay			
with type designation(s) Tesys D LRD3 / LR3D3			
Schneider Electric Industries S.A.S. Grenoble, France			
is found to comply with DNV rules for classification – Ships, offshore units, and high species 60947	ed and light craft		
Application:			
Products approved by this certificate are accepted for installation	on all vessels classed by DNV.		
Issued at Høvik on 2022-07-04			
This Certificate is valid until 2027-06-30 . DNV local station: France CMC	for DNV		
Approval Engineer: Nicolay Horn	Marta Alonso Pontes Head of Section		

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Form code: TA 251

Revision: 2021-03

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Job Id: **262.1-007397-7** Certificate No: **TAE0000201**

Revision No: 2

Name and place of manufacturer

Schneider Electric France 6-8 rue du Bailly 21078 Dijon Cedex FRANCE

Product description

Thermal overload relay with differential and non differential type.

Rated insulation voltage Ui : 600 /690 V*
Rated impulse voltage Uimp: 6 kV
IP protection: IP20

Technical data:

LRD3	Current Range	lq = lr	Iq	Fuse aM
LR3D 3	le (A)	(690V)*	(440V)	(A max.)
Class 10		(kA)	(kA)

^{*} See Application / limitation

Application/Limitation

For installation in enclosures onboard ship and offshore units

With Uimp = 6 kV the max. rated voltage is 600 V when used in a IT (ship) net. Applicable for use in applications with directly earthed systems with rated voltage of 400/690 V.

Environmental classes: Vibration: A, Temperature: D, Humidity: B.

Test reports:

Schneider Electric test report no. 2009036229_001 dated 2009-02-12.

LCIE test reports no. 1911990013 & 1911990014 dated 2019-09-26.

LCIE test reports no. 150527-710254 & 150529-710258 dated 2018-01-24.

LCIE test reports nos 128422-665184-D00 to D04 all dated 2015-05-20. LCIE test reports nos. 110468-620644/00, 110468-620644/01, 110468-620644/02 & 110468-620644/03 all issued 2013-

04-04

Tests carried out

Electrical tests after IEC 60947-4-1 (2018). Environmental tests after "Standard for Certification no. 2.4" April 2006 (Power supply variation, power supply failure, dielectric, insulation, inclination, vibration, cold, dry heat and damp heat).

Marking of product

Telemecanique - Schneider Electric- Type designation

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval is complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routines (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Assessment to be performed at 2 and 3.5 years and at renewal.
